INTERESTING PROJECTS

Liricare

Liricare is a specific need job portal launched in the USA. This is a reward-based job portal; candidates get rewards based on profiles bought by any recruiter. Candidate can redeem their reward points as an Amazon gift card or boost their profile to any pin code. Recruiters can also boost their job on specific pin codes. This project also has the functionality of live chat between recruiters and candidates.

Duration: Feb 2019 to Mar 2020

Technology Used: Laravel, MySQL, WordPress

URL: <http://liricare.com>

Travel Websites

There are 4 travel websites I have managed and enhanced new features to them. which have tour products from different APIs. I am making enhancements to that.

Duration: Mar 2021 to Sep 2021

Technology Used: Laravel, MySQL, Vue Js

URL: <https://australianadventure.travel>, <https://dutchies.travel>, <https://germans.travel>, <https://divingaustralia.travel>

VerityTV

VerityTV is a Kenya-based project. It has similar functionality to Netflix and also has a live-streaming concept. Video's concept is as pay per view. The video securing concept is using disabling right click and implementing blob URLs.

Duration: Apr 2020 to Jan 2021

Technology Used: Laravel, MySQL, Nginx RTMP

URL: <http://verity.live/>

Naviance

Naviance is a PowerSchool project which helps students, teachers, schools, and colleges. Naviance helps ensure that all paths students take after high school lead to fulfilling and meaningful careers. In Naviance, I worked in the Admin Tools team where I worked on various tickets related to Area51, CRM, and Succeed in different technologies.

Note: I worked on the PowerSchool project on a contract base in Infogain.

Duration: Nov 2021 to Present

Technology Used: Symfony, Php, JavaScript, MySQL
