Projects Undertaken

1. Project Title: Reddoorz

URL: <https://redcm.reddoorz.com>

Description: Reddoorz is a product base company and provide hospitality service. In this company I am working on Channel manager application as Senior Software Developer. A channel manager is a simple yet powerful piece of hotel technology that increases occupancy, saves time, boosts direct bookings and maximizes online sales. It allows a hotel to expand its reach and online bookings, as well as more easily manage its rates, availability, and reservations. I have integrated the Rest & Soap API's of following OTA: MMT, GOIBIBO, Expedia, Booking.com, Agoda, Ticket.com, Hostel world, Hotelbed etc..

Environment: Laravel, Zend Framework, Reactjs, Mysql, Mongoddb, RabbitMQ

Role: Development and project coordination

2. Project Title: Rroomito.com

URL: <https://roomito.com>

Description: This is product base company working on hospitality domain. I had worked on that company Channel manager and PMS application. PMS is manage property, rate, inventory, booking booking. Channel Manager sync data on different OTA's MMT, GOIBIBO, Expedia, Booking.com, Agoda, Ticket.com, Hostel world, Hotelbed etc.

Environment: Laravel, Zend Framework, Reactjs, Mysql, Mongoddb, RabbitMQ, Angularjs 1

Role: Development and project coordination

3. Project Title: Muti Level Money Matrix

URL: <http://www.perfect-your-credit.com/>

Description: This is money matrix management site where users purchase online Toolkit and he will become member of Matrix. User will earn money when each Matrix level is completed. We have implemented the PayPal, on delivery methods for payment in site.

Environment: PHP Zend Framework, Ajax, JQuery, MySql, custom modules.

Role: Development
